Product Profile

Vector Eclipse is a high bandwidth CIR, single class of service, symmetrical Layer 2 access service delivered over fibre.

It is fibre network agnostic, future proofed and fast, delivering the bandwidth and connectivity you need, whenever you need it.

Business Benefits

Easy

It's easy to move between variants with a simple no-fee MAC process

Flexible

Select any major exchange or data centre in the Auckland area for your Vector Handover (ENNI)

Competitive

We regularly review our product offer against the wider market

Reliable

With an Enhanced SLA, our NOC is always available for you to contact

Accessible

No hidden tail extension costs – just the Eclipse variant you have selected

Certain

With full CIR you know all of your bandwidth is available all of the time
